

# **Southwest Decision Sciences Institute**

## **Mission Statement**

The Southwest Decision Sciences Institute (SWDSI) is a multidisciplinary professional association that seeks:

- To promote the development and application of information technology, quantitative methodology, and behavioral approaches to decision making in organizations,
- To improve instruction in all business and related disciplines, and
- To serve developmental needs of graduate students, educators, and academic administrators.

The primary purposes of SWDSI are:

- To provide and coordinate an annual meeting in the southwest for its members,
- To provide a forum through an annual meeting for networking and for the discussion and exchange of ideas and presentation of papers,
- To provide innovative teaching and professional development programs, and
- To provide information which can be used to improve classroom instruction, research, and academic and business development.

## **Vision Statement**

To be the premier organization in the southwest in the development and application of information technology, quantitative methodology, and behavioral approaches to decision making.
